

OVERLAND Do You Know What It Stands For?

You want your car to reflect in its name the judgment you exercise in choosing it. You want to mention the name with pride, not apology. You ask no odds of anybody, or of any car--no matter what its price--if yours is an Overland. To manufacture an automobile that will give fairly good service with expert supervision is not a very difficult matter. But to produce a first-rate automobile, a car that gives uniform and unflinching satisfaction in the hands of the average user, was left to the Willys-Overland Company.

Motor--4x4 in.; 30 H. P. Wheelbase--110 in. Ignition--Remy Magneto and battery. Rear Axle--floating; Hyatt bearings. Tires--32x3 in.; quick detachable rims. Finish--Overland blue, gray wheels, nickel aluminum trimmings.

The Overland has been, and is, a splendid proof of its makers' conviction that a motor car of sterling qualities can be sold to the public at a price lower than that demanded by other manufacturers of similar cars.

\$985

Automobile values must be looked at from several different angles. You must consider not only the price but what that price buys you. You must take into consideration the power, the strength, the beauty, the construction, the size, the appearance and the equipment of the car. You must judge a car by the material in it, the workmanship on it, the methods employed to produce it, and last but not least, the facilities behind the production methods.

Take the equipment item alone. The car has a Warner speedometer--the best made; a fine mohair top and top covering; a clear vision windshield; a self-starter and Prestolite tank--every practical accessory made for an automobile. And all for the one price. No "extras."

Only enormous capital and gigantic preparation can accomplish this. The Overland has both, and in this regard is in a class all by itself.

The Small Bowl in the UNITED STATES CREAM SEPARATOR

Is a Marvel of EASY Running

Old style United States Separators did not run so easy as new style Interlocking Separators. This picture shows the contrast between the old style and the new style United States Separator bowls.

The skimming capacity of these two bowls is practically identical--yet the new style bowl is only half the size of the older model, and runs with about half the power of older models.

The 1913 model U. S. has one of the smallest bowls, capacity considered, and is one of the easiest running separators made.

The Non-Rusting Nickle Silver Skimming Device

The 1913 model U. S. Separator is the only cream separator with a NICKEL SILVER, NON-RUSTING skimming device and strictly guaranteed. You owe it to yourself to see and try one of these U. S. Separators before buying any other.

Price as low as \$25.00. Old Separators taken in exchange. **VERMONT FARM MACHINE COMPANY** Bellows Falls, Vt. Chicago, Ill.

U. S. Separators sold by: Geo. McIntyre, Yale; H. C. Seigel, Capac; C. H. Kimball & Son, Port Huron; Jackson and Dolph McNary, Brown City.

NEWBRO'S HERPICIDE SAVES THE HAIR And Keeps You Looking Young

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well preserved."

Everyone can retain beautiful, luxuriant hair if they make the effort. In almost every instance poor hair or the loss of hair may be traced to the activity of the dandruff germ. Newbro's Herpicide prevents the scale-like accumulation and puts the scalp in a perfectly healthy condition. With the elimination of the dandruff the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a substitute. Insist on having genuine Herpicide.

"Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers."

That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons.

The owners never regretted that they bought Studebakers.

Tested materials, accurate workmanship insure a wagon unequaled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure--and harness of every description made as carefully as are Studebaker vehicles.
